

Sally is helping with scheduling, communication, and web projects. She joined us this summer after years of teaching private music lessons. She has a master's in voice, loves to make jewelry, talk business, learn languages, and understand how people work. These are all distant seconds to hanging out with her nieces and nephew, of course...

The other new face around 3n1media is Peter Lapp. Peter has been helping out with everything from house calls to server installation and is certified in A+, Network+, CEH, and CCNA. He will also be helping facilitate security services to our clients. In his spare time he helps run a non-profit organization that exists to see a movement of compassion wipe out hunger, disease, and extreme poverty.

Dear ,

Welcome to the first edition of 3n1media's monthly newsletter. We will start sending out separate versions to our web clients and tech clients in an effort to communicate well and make sure our clients are getting the most out of what we have to offer. We'll be sharing tech tips, our thoughts on current related trends, and helping you get to know what 3n1media is all about.

In further efforts to assist in communication, we finally have a central number for you to call for scheduling instead of having to reach us only on our cell phones! Call 615.372.0300 and Sally Corlew, the new voice on the other end, will help with assigning and scheduling what you need. We hope you will find this new communication flow more efficient.

3n1Media Numbers:

Main number: 615.372.0300

Fax number: 615.372.0303

Toll-free: 888.3n1.COMP

You can reach Sally at the 615.372.0300 number. We also have a new toll-free number for our remote clients (888.3n1.COMP) and a new fax number (615.372.0303), though the old one will continue to work as well.

We moved into our new office about a year ago and would love for you to stop by to see the great new space! [View Map](#) (Suite 101)

Reminders:

Home service

Don't forget that we can come right to your house, servicing the same needs for pc's, mac's, wireless networks, etc.

Our premium service packages offer

*Same day, 24 hours/seven days a week service for business-critical issues with a maximum 4 hour response time and no emergency charges.

*Priority Scheduling for non-critical issues

*Proactive approach to support and issues

*Considerable savings over flat rate service

If you have any questions or concerns about our new communication flow or anything else, please do not hesitate to call.

Thank you,

Sean Wright
